

As a subscriber to XM The weather and traffic stations have been very valuable to me. It allows me to find out if I am driving into bad weather and road conditions. I travel all over the country with my job and the road and weather services have helped me a great deal. The NAB should not be allowed to tell me what I can hear on XM. I pay for this service. Please do not support petition 04-160. Thank you for your time.
